

***Why Music?* by Caydn Baldwin**

[Verse]

The string vibration is remedy for my ears

The words are therapy for my heart to hear

The wounds of the world are left for you to cure

The pains that you felt are left behind this verse

[Pre-Chorus]

When the beat goes on will the troubles be gone?

[Chorus]

Why is this melody the only thing that helps me?

Why do these simple phrases fix me more than anything?

Why are these chords the door to set me free?

Why is this rhythm my constant source for peace?

[Post-Chorus]

Why music?

Why music?
