

***Butterflies* by Caydn Baldwin**

[Verse]

Words can't say what I'm feeling
I'm lost in a blank mind, you got me stuck in a daze
You take my breath away, I don't mind you stealing
I'd give it to you anyway

[Pre-Chorus]

It started when we first met talking in a trance
Then to the next one laughing in our slow dance
Our small talks turned to our little shared glances
I don't know what it means but I'm taking my chances

[Chorus]

You've got me butterflies, singing ooh
You've got me paralyzed, singing ooh

[Interlude]

You're more beautiful than a sunset on the Colorado mountains
You shine brighter than the stars in a summer night sky

[Chorus]
