

***Heartbroken* by Caydn Baldwin**

[Verse]

I don't know what to say here, it's the truth
Wrong words are my biggest fear, that's why I'm so blue
I'd love to love you for many years, far beyond our youth
I dream of calling you "My Dear," its been up to you

[Verse]

I've given you my best shots they've all fallen through
These lyrics are all I've got to be next to you
Things changing, I'm aching, not faking, I'm bruised
Please take me, forsake me, just break me, I lose

[Chorus]

I'm hoping you'll love me but you're not going to
I'm choking everytime I try to confess its true
I'm frozen just knowing I'll never get to be with you
I'm heartbroken
